

Name Class M.6/ No.

Bacteria (Prokaryote) vs. Eukaryote

	Prokaryote	Eukaryote
Position of genetic material		
Character of genetic material		
Name of membrane- organelles in cytoplasm		
Name of organelles (no membrane) in cytoplasm		
Name of cytoskeletons in cell		
(check <input checked="" type="checkbox"/> if) Found cyclosis		
(check <input checked="" type="checkbox"/> if) Found polysome		
First codon (AUG) code for		
Position for ATP synthesis		
Position of pigments		
Character of plasma membrane		
Character of cell wall		
Character of appendage		
Main protein in flagella/flagellum		
Etc.
